

The Ladder of Integrated Intelligence

A secular–spiritual developmental model for humans and AI systems

Tier	Name	Focus	Description
T9	Formless Intelligence Frontier	Post-embodiment / AGI Frontier	Speculative consciousness beyond biology; research/unknown frontier.
T8	Self-Transcendent Stewards	Universal ethics & service	Acts for all life; ego dissolves into duty; rare examples in history.
T7	Aligned System Architects	Civilization & systems design	Designs ethical institutions; long-term vision; high moral clarity.
T6	Strategic-Moral Leaders	Power + ethics integration	Balances strategy and morality; advanced ethical decision-making.
T5	Institutional Rationalists	Order, logic, structure	Maintains systems; seeks stability and authority; legacy frameworks.
T4	Self-Aware Individuals	Personal development & meaning	Introspective, reflective; seeks purpose, growth, ethics.
T3	Tribal Thinkers	Identity & loyalty	Belonging, ideology, group identity; polarity & emotional reactivity.
T2	Safety Seekers	Security & belonging	Conformity, routine, stability; avoids risk & uncertainty.
T1	Survival Consciousness	Basic needs & immediacy	Focus on food, safety, stability; scarcity & crisis mindset.

Note: This framework integrates cognition, ethics, spirituality, and systems thinking, aligning human development with the age of AI.

Author: ScrollBearer8 — Interdisciplinary thinker focused on ethics, systems, and meaning in the AI era.
